

Social housing form finding

Geometry and digital form finding: Form finding

1 .Plans taken from Triangle Swindon, Glenn Howells architects. It gave dimensions for hempcrete housing, due to the house only having space for one person it was reduced to one floor with dimensions: 8.5 X 5.2m.

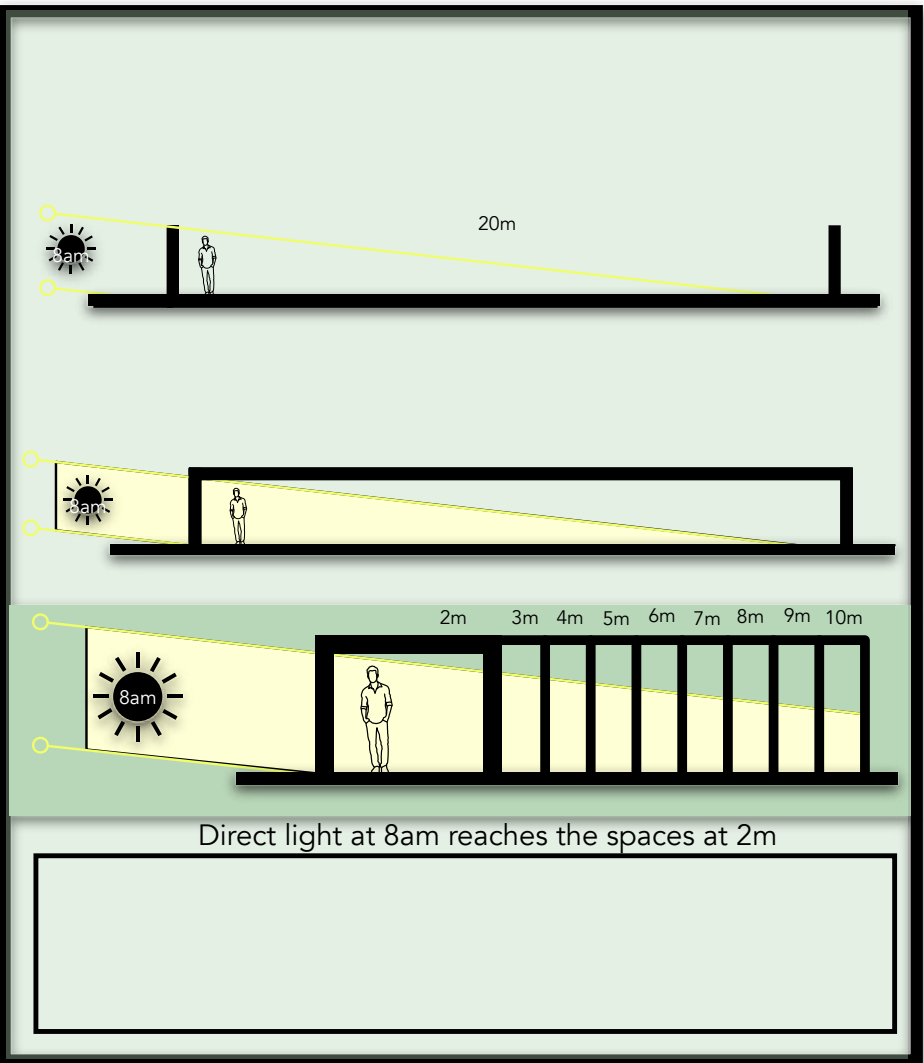

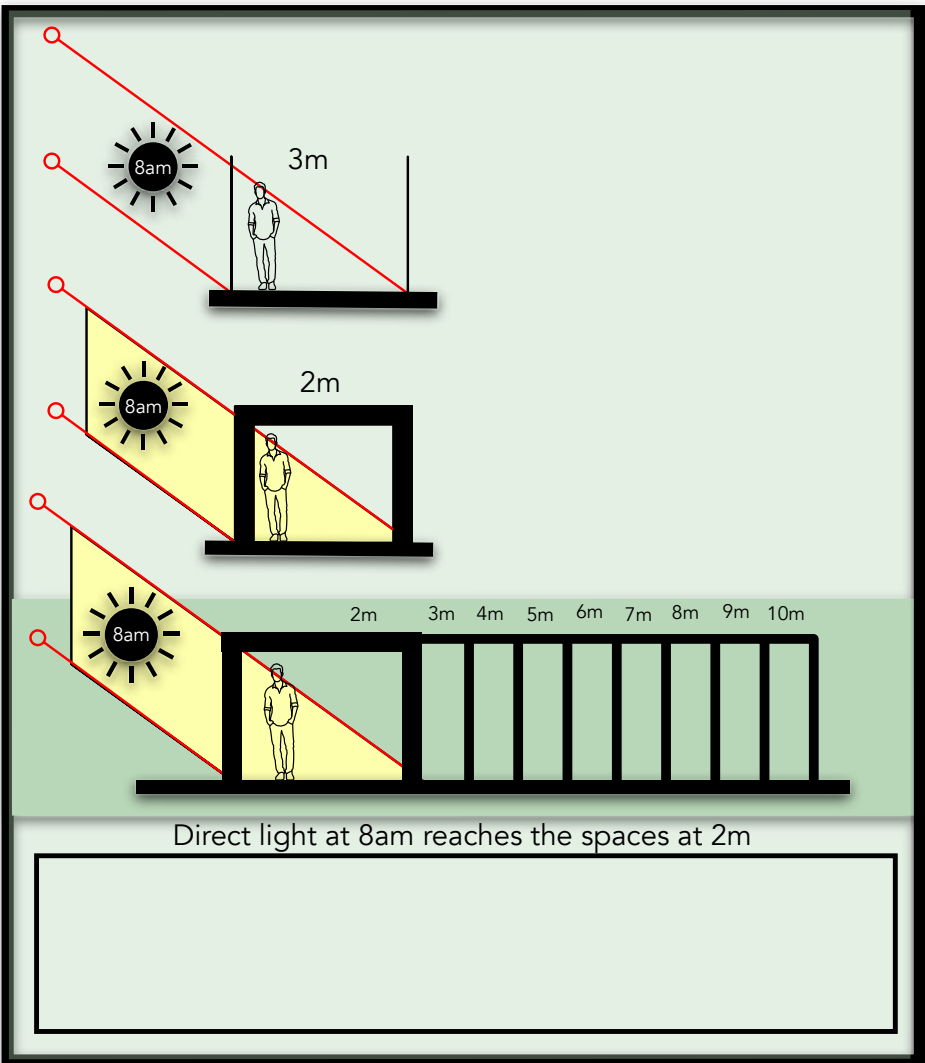

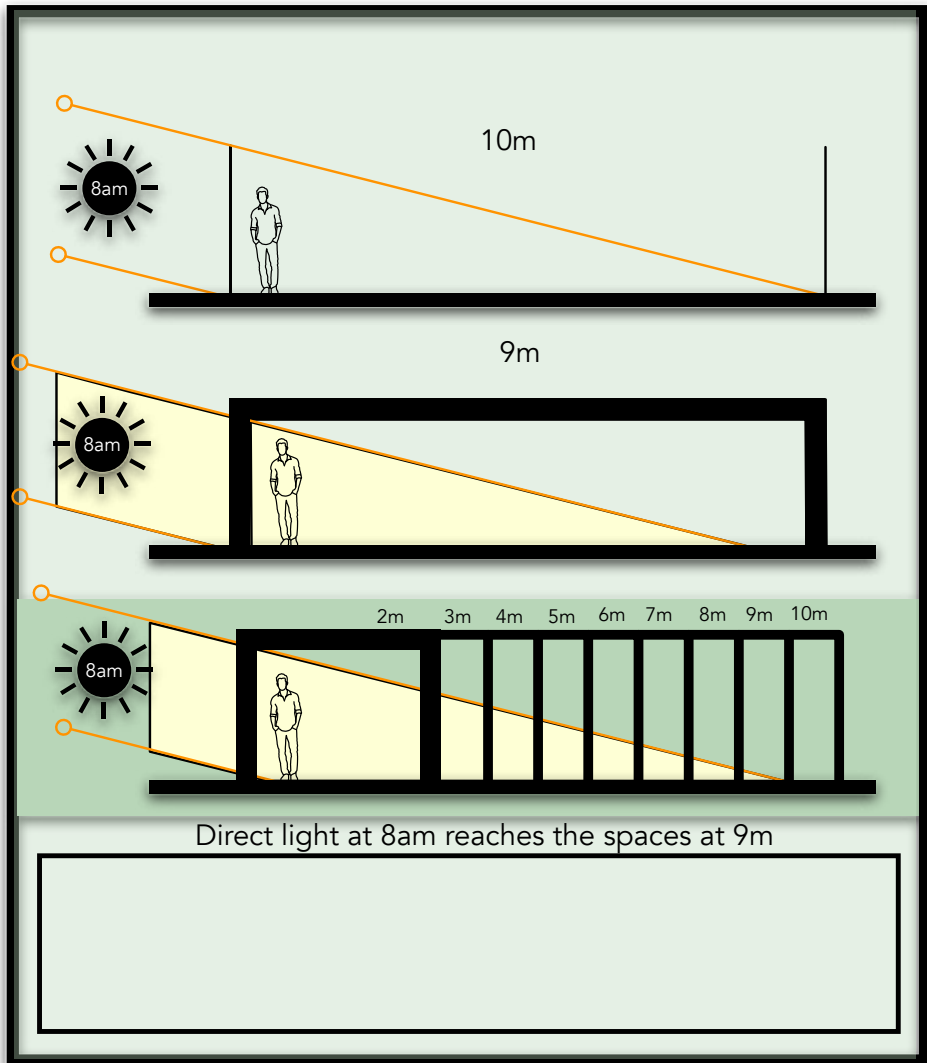

2. Sections were used to find the best length that will allow sun to enter the space at 8am, the time when residents wake up for work very morning.

22 March- Equinox solstice

22 June- Summer solstice

22 December- Wintersolstice

3. Three different wall bonding techniques were examined but due to COVID-19 testing was limited and a online research had to be used.
